**Poll Results**

$$\int_M d\omega = \int_{\partial M} \omega$$

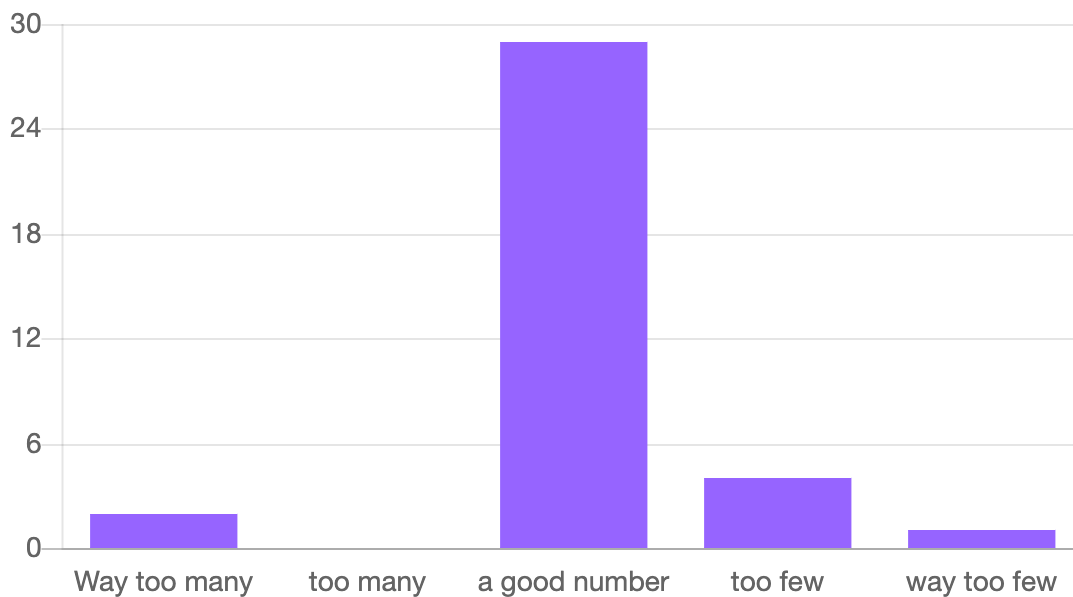

## Poll on Polls

**Question #1** To what extent do you agree or disagree with the statement "Math 3A in-class polls are useful."

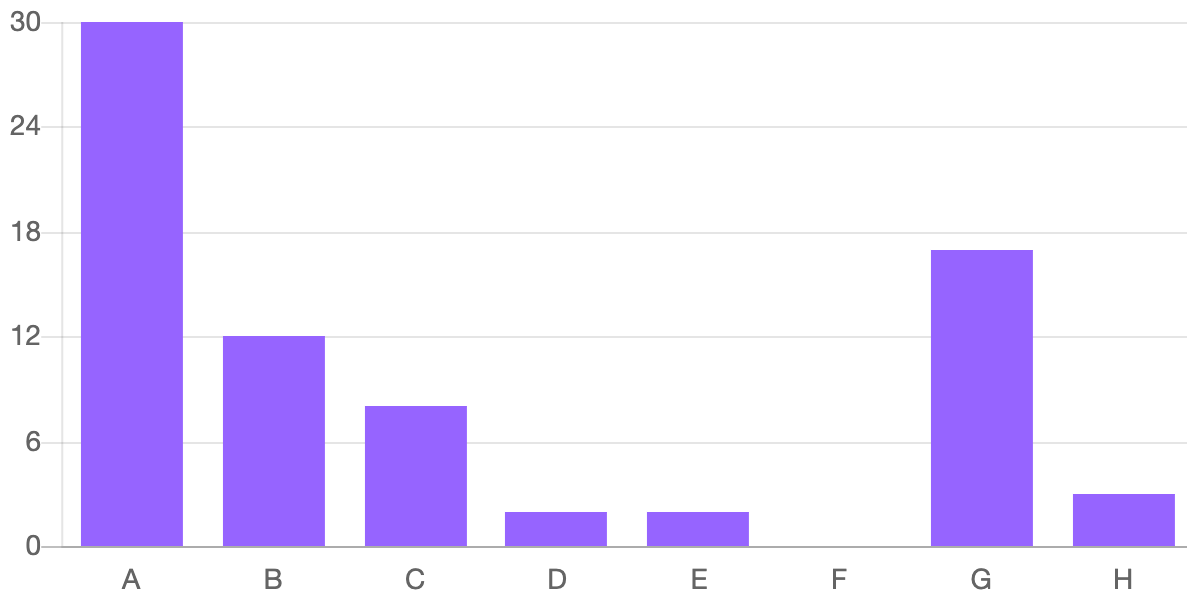

**Question #2** When considering the number of in-class polls, I think there are:

**Question #3** When considering the Assignments, I think:

- (A) Participation polls help me keep on top of the material
- (B) I prefer participation polls to marked assignments

- (C) I might forget to do the assignments without the participation polls  
(D) I wouldn't bother doing the assignments if not for the participation polls  
(E) the participation polls are actually useless  
(F) I didn't know there were participation polls!  
(G) the opportunity for feedback on assignment solutions is helpful  
(H) I have specific ideas for improving how the course is evaluated

#### Question #4 I am attending this lecture
